## OUR PASSION IS DESIGN

Vondom's challenge has been to inspire life in every piece, achieving a natural balance between the environment, shapes, and forms. This philosophy is transferred throughout our creations and our designer culture represents our key to success and a guideline in every step we take.

The text below describes a number of leisure and shopping centre projects in which Vondom collections have been used to create settings for taking a break from everyday life in the form of relaxation areas as well as dining rooms, terraces and playgrounds.

The designs are seamlessly integrated with the architecture to enhance the buying experience for shoppers whilst adding a distinctive decorative touch.
