

IN/OUTDOOR RUGS

FERREIRA DE SÁ

LUXURY RUGS SINCE 1946

PATIUM
OUTDOOR COLLECTION

LET'S GO OUTSIDE!

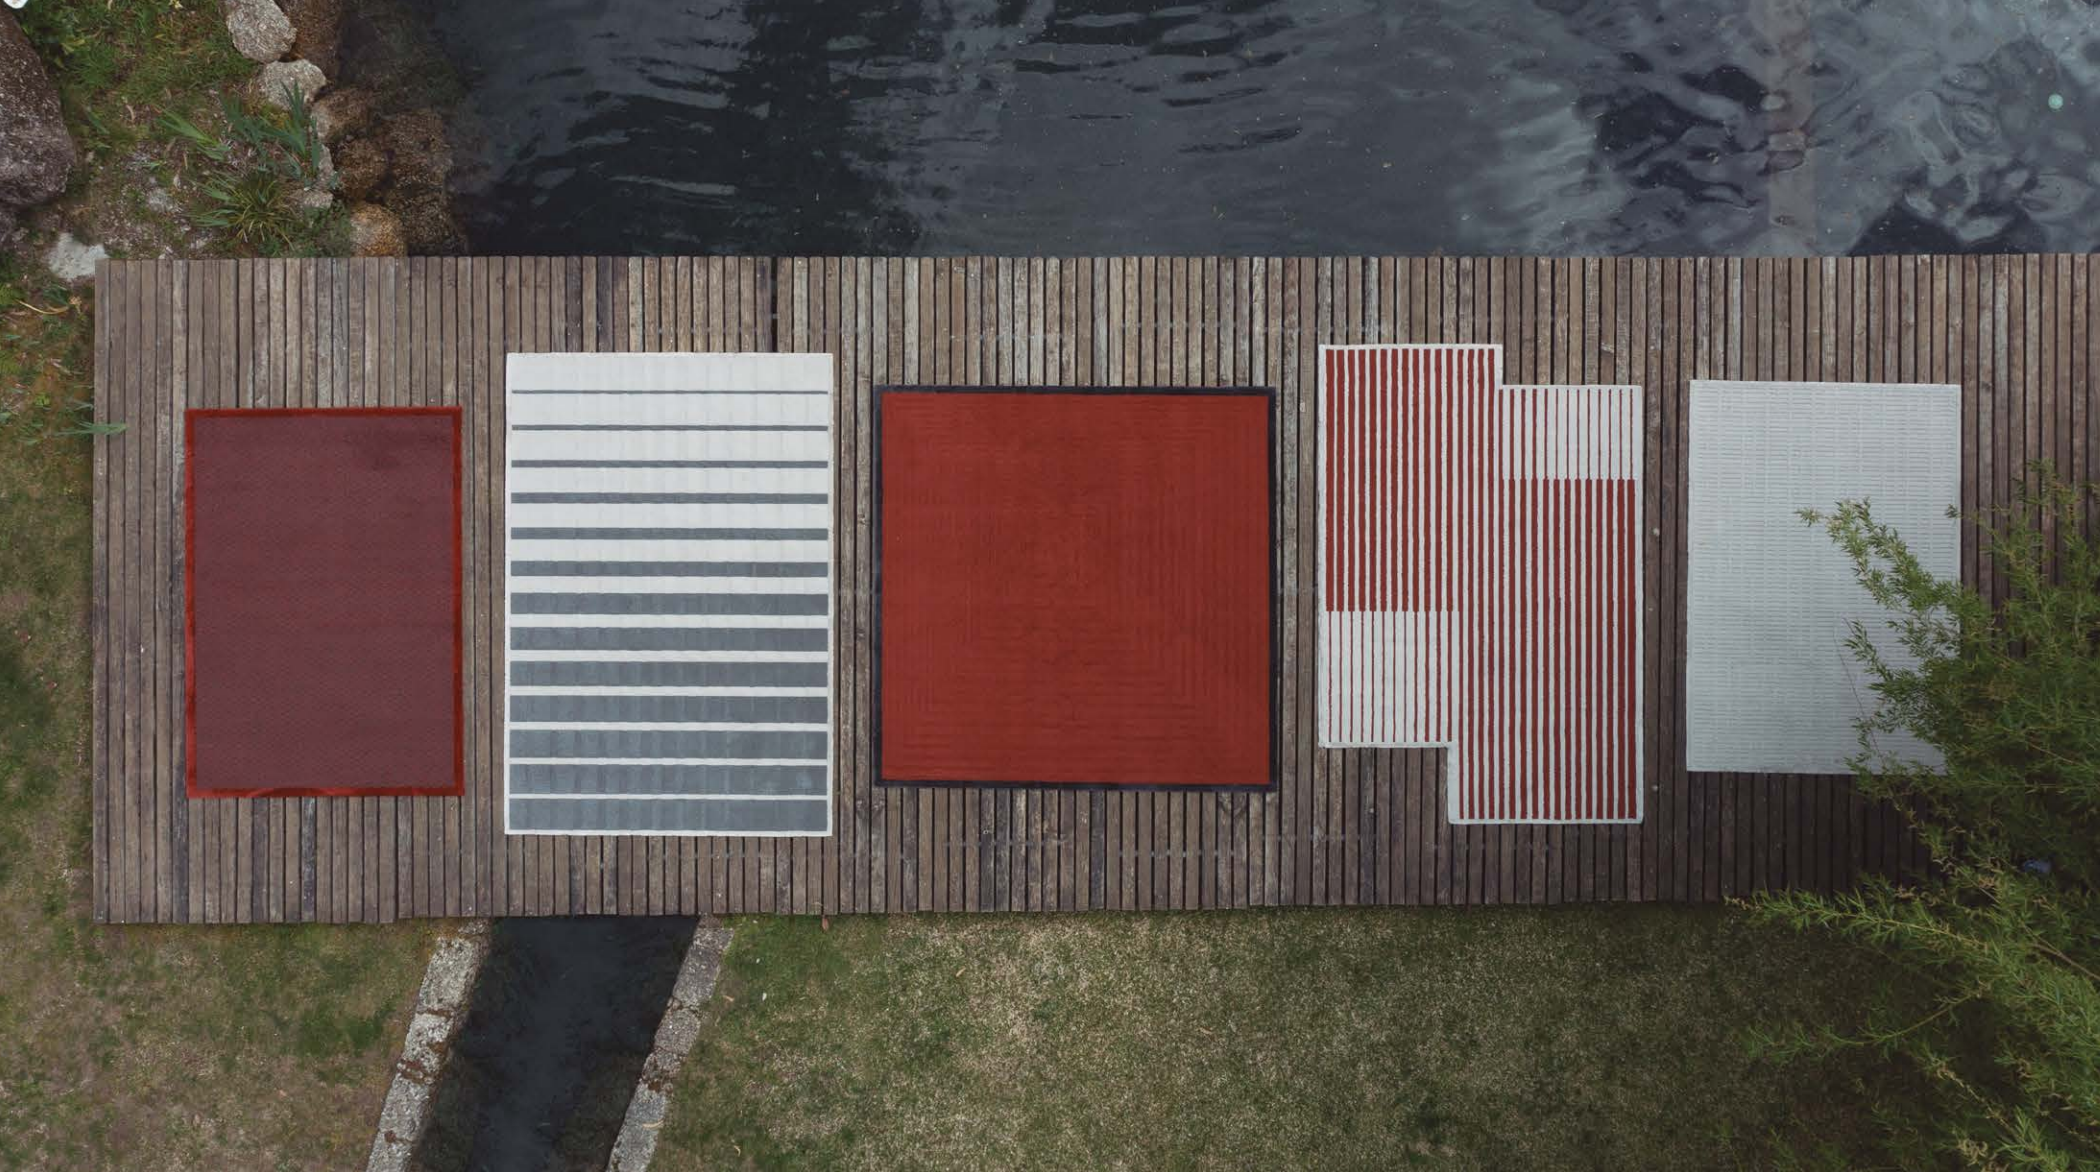

PATIUM

OUTDOOR COLLECTION

Ferreira de Sá's Patium collection was conceived as an extension of the indoor living area.

This collection was designed to serve both for Indoor and Outdoor. Extremely suitable for terraces, balconies, swimming pools, wellness areas and sailing decks. It is also appropriate for shops and offices. The strong characteristics of Patium combined with its custom-made dimensions make the collection appropriate for residential and hospitality projects.

Available from 8mm to 16mm pile heights, made from high tenacity polyolefin, this collection was produced on a serene colour palette which will bring comfort and sophistication to any space.

PATIUM

OUTDOOR COLLECTION

Ferreira de Sá takes to the outside the one element that most likely will accentuate an intimately cosy domestic atmosphere: the rug. This unique collection was inspired by forms of nature, using a combination of textures, colours and shapes. Developed with high-performing materials, this in/outdoor collection is dedicated to those who love the elegant and timeless aesthetic of Ferreira de Sá.

MAIN ADVANTAGES

HIGH DURABILITY

LIGHT FASTNESS

COMFORTABLE

SUITABLE FOR IN AND
OUTDOOR

ANTI-ALLERGIC

WATER AND CHLORINE
RESISTANT

EASY TO CLEAN

CARE AND MAINTENANCE

STAIN CLEANING

DAY TO DAY CLEANING

1. WATER AND SOAP

Use a spray bottle that contains mild soap and water and apply it to the stain on the carpet.

2. BRUSHING

Apply the solution to the stain by lightly rubbing the area with a very soft sponge or brush.

3. RINSE

Rinse well to remove all soap residue.

4. GENTLY DRY

Press lightly the rope on the tapestry with a sponge or a soft, clean cloth to remove excess of water and moisture.

5. DRY

Allow to air dry. Repeat steps 3 and 4 until all the detergent residue is removed.

1. BRUSH OR VACUUM

Brush or vacuum the tapestry well to remove surface dirt and sand.

4. ABSORPTION

Allow the cleaning solution to penetrate the rope.

2. WATER AND SOAP

Use of a cleaning solution with water and neutral soap.

5. RINSE

Rinse thoroughly to remove all soap residue.

3. BRUSHING

Use of a soft brush for cleaning so as not to damage the rope causing filaments to come out.

6. DRY

Allow to air dry in a horizontal position. Turn the carpet over to dry both sides.

CARE AND MAINTENANCE

MOULD AND MILDEW STAINS

1. SOLUTION

Prepare a solution of a cup of hydrogen peroxide and a quarter of a cup of mild soap for 3.8 litres of clean water.

2. SPRAYING

Spray over the entire area and wait 15 minutes for the solution to penetrate the fibre.

3. CLEANING

Clean the entire area with a sponge, clean cloth or soft brush.

4. RINSE

Rinse well to remove all soap residue.

5. DRY

Allow to air dry.

PROFESSIONAL CLEANING

When evaluating the services of a professional company, you should always ask about the company's experience with outdoor hand-tufting tapestries and knowledge of the cleaning and reconditioning requirements of this type of rug.

OTHER RECOMMENDATIONS

It is recommended to clean the entire surface of the rug to avoid stains and water marks along it. We advise turning the rug 180° at regular intervals to prevent marks from furniture positioned over it. It is advisable to keep the rug in a sheltered place when it is not being used. For greater durability of the rug / floor we strongly recommend the purchase and use of an underlay.
