WIR. MEINEN.

Ein Fitnessgerät sollte wesentlicher Bestandteil des Trainingsziels sein. Aber wir meinen auch: das Erlebnis muss gefallen, dass man immer wieder zurückkehren möchte. Ein Fitnessgerät muss uns auf mehreren Ebenen ansprechen. Angefangen mit der Optik. Dann, wie es sich anfühlt. Und am wichtigsten: wie man sich nach dessen Gebrauch fühlt. Uns liegt das gesamte Erlebnis am Herzen. Hier fängt es bei uns an...

WE. BELIEVE.

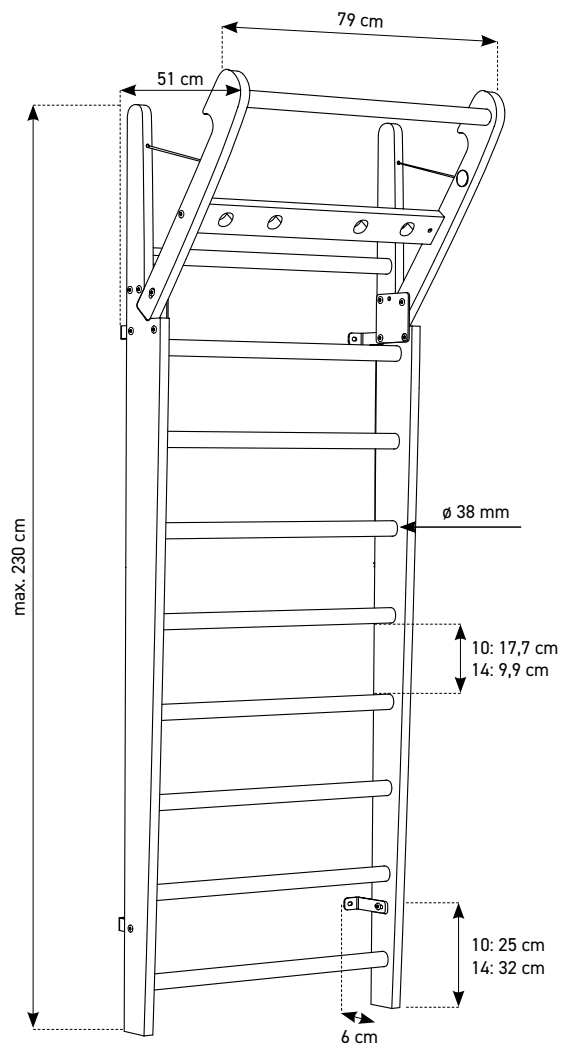

Exercise equipment should be an essential component of achieving your fitness goals. But we also believe: you have to love an experience to keep coming back for more. Your equipment must appeal to you on more than one level. Starting with how it feels. And especially: how it makes you feel. This is where we begin...

UNSERE. ARBEIT.

Die Verarbeitung von natürlichen Materialien sowie das sorgfältige Sourcing sind Priorität in den WATERROWER | NOHRD Manufakturen. Das Massivholz stammt ausschließlich aus nachwachsenden Baumbeständen in den USA und Deutschland.

Die Kombination aus klassischer Handarbeit und präziser Maschinenteknik sichert unsere konstante Qualität und Entwicklung. Dabei gehen wir verantwortungsvoll mit unserer Umwelt um – Holz und Rinde werden restlos verwertet, Abfall gibt es nicht. Restholz wird zur Energieerzeugung in der Manufaktur genutzt, während wir mit eigens produziertem Solarstrom unsere Maschinen schadstoffarm betreiben.

OUR. WORK.

Use of natural materials, wherever possible, along with careful sourcing are a priority at both WATERROWER | NOHRD manufacturing facilities. Our premium wood is selected from sustainably managed forests in the USA and Germany. Combining classic handcraft and precision machine technology ensure consistent quality and constant progress.

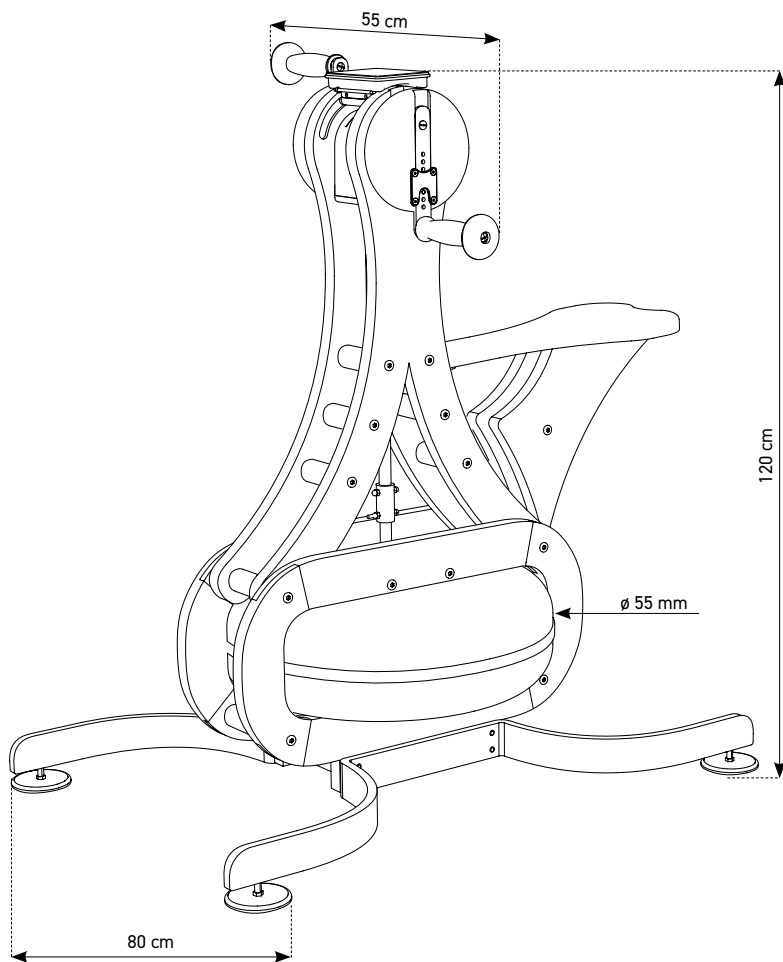

We care about our environment and make minimal waste a top priority: all wood and bark is processed, while production residue is used for power generation. Further, we produce our own solar electricity for powering machinery with low-emission efficiency.
