

UPHOLSTERY

CASA  MAGNA

About us

Aiming to bring a new twist to the Design Furniture Concept, CASA MAGNA was born, distinguished in its sophisticated and cosmopolitan design.

Modern Furniture, designed and crafted to fit day-to-day life, mirrors this brand, established in 2017 in the city of Porto in Portugal. The CASA MAGNA collection is based on the need to create luxury furniture with unique and refined finishes, capable of inspiring the most demanding design tastes.

Like the most exciting stories, it all started with a man and a vision. Pedro Sampas was born in Porto, in April 1972. With inherited tradition from a family business and influenced by multiple cultures and a cosmopolitan lifestyle, Sampas knew exactly what he wanted interior design to be: customized and carefully crafted, an artisanal approach that brings exclusivity to each collection of pieces he designs.

Corporate values as the appreciation for all those who work with us, each valued employee and their experienced knowledge made this brand the result of a family gathering: no two days are alike but in the end we are all proud to be part of it.

At Casa Magna we know that each house reflects an individual personality and history, which is why our collection is made to order, allowing the choice of every detail, from the color and texture of the fabrics, to the woods and stones or ceramics that best personifies who lives there, resulting in an exclusive and unique interior decoration.

Our vision is to invest in innovation policies – through the implementation of new technologies – as well as to maintain our manufacturing process with high levels of quality.

Along these lines, Casa Magna is the result of a mixture of consciousness, creativity and excellence, designed to last a lifetime and be recognized for the upcoming generations.
